Professional Objective:

Software Engineer with experience in web development, using JavaScript ecosystem such as React, Node.js, TypeScript, and SQL/NoSQL databases. With a focus on scalable and efficient solutions, I seek to contribute my technical and creative skills to an innovative company, contributing to the development of high-impact products and improving the user experience.

Academic Background:

Universidad Tecnológica del Norte de Aguascalientes | Rincón de Romos, AGS.

Software Development and Management Engineering | September 2023 – April 2025.

Universidad Tecnológica del Norte de Aguascalientes | Rincón de Romos, AGS.

Bachelor's Degree in Information Technology, Multiplatform Software Development Area | September 2019 – April 2023.

Work Experience:

Lead Frontend Developer • Boxode, Ltd.

Aguascalientes, AGS. MX. | April 2023 – June 2024

- I led a team of five developers using agile methodologies, improving code quality through reviews with the help of highly specialized staff and technical mentoring.
- I reduced delivery times by 20% by implementing reusable components and standardizing the workflow with new development tools.

Systems Technical Support • CompuCel.

Cuauhtémoc, ZAC. MX. | November 2022 – February 2023

- Diagnosis and repair of hardware/software, ensuring the operational continuity of customers' equipment.

Software Development Intern • INBAC Instituto Niels Bohr.

San Francisco de los Romo, AGS, MX. | March 2022 – August 2022

- I designed and deployed a comprehensive School Management System (ERP) using PHP, MySQL, and JavaScript, centralizing the database of students and administrative staff.
- I digitized the institution's financial system (payment recording, ticket generation, and debt control), eliminating the use of paper and reducing manual errors.

Languages:

Spanish:	Native
English:	B2 Level
German:	Beginning

Technical Skills:

- Frontend: React.js, Next.js, Astro, TypeScript, Tailwind CSS, HTML5/CSS3.
- Backend: Node.js, Express.
- Databases: SQL (MySQL), NoSQL (MongoDB).
